Outline for HIE-32 suggested by [REDACTED] at HEB
Meeting 7 April 1951.

1. North Koreans out of picture; future depends on Chinese, behind them, the Soviets.
2. All the evidence suggests Chinese Communist drive us out.
3. All the evidence suggests that Chinese, relying on continuance of Manchurian sanctuary intend to continue operations indefinitely, can do so; does not bear temporary truces or even settlement in bad faith.
4. No evidence that Soviets will intervene openly.
5. Much evidence Soviets will step up aid to point where my tip scales.
